PROFILE

Full Stack Engineer and MCA graduate with hands-on experience building and deploying scalable web applications using React, Python, Django, Flask, and PostgreSQL. Completed an intensive internship at Upcode Software Labs, delivering production-ready projects across frontend, backend, and cloud deployment. Experienced in CRM application development, e-commerce platforms, and REST API integration.

TECHNICAL SKILLS

Frontend: HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, React JS, Redux, TypeScript, Next.js, Material UI

Backend: Python, Django, Django REST Framework, FastAPI, Flask, REST API Development

Databases: SQL, PostgreSQL, Neon Cloud DB

Tools & Platforms: VS Code, Postman, PgAdmin, Git, GitHub, GitLab, Twilio

Cloud & Deployment: Vercel, Render, Cloudinary, Cloud VM

EXPERIENCE

Full Stack Developer Intern — Upcode Software Labs

- Developed full-stack applications using React, Python, Django, and Flask with PostgreSQL.
- Built and integrated REST APIs, handling complete frontend-backend communication across multiple projects.
- Participated in live project development — contributed to real-world CRM and e-commerce platforms delivered to clients.
- Deployed production applications to cloud platforms including Vercel and Render.
- Used Git and GitHub for version control and team collaboration.

PROJECT EXPERIENCE

CRM Application | *React.js · Django REST Framework · PostgreSQL · Redux*

- Collaborated on a full-featured CRM with Lead, Deal, Task, Ticket and User Management modules.
- Built REST APIs and integrated them with React frontend; implemented JWT authentication and role-based access control.
- Integrated Twilio for phone call functionality and developed CRUD operations with interactive dashboard.

Aurette — Women's Jewellery E-Commerce Platform | *Python Django · Bootstrap 5 · PostgreSQL · Vercel*

- Built a full-stack luxury e-commerce app with product listing, filtering, live search, cart, checkout, and wishlist.
- Developed user authentication, customer reviews, order management, and Arabic/English bilingual support.
- Designed fully mobile-responsive UI; deployed on Vercel with Neon PostgreSQL cloud database.

shop.co — Fashion E-Commerce App | *React · Django REST API · PostgreSQL · Cloudinary · Vercel · Render*

- Built full-stack fashion e-commerce app with product browsing, cart management, and user authentication.
- Integrated Cloudinary for image hosting; frontend on Vercel, backend on Render with PostgreSQL.

EDUCATION

Master of Computer Applications (MCA) — Jain University, Bangalore (2023–2025)

Bachelor of Science in Computer Science — Calicut University (2019–2021)

CERTIFICATIONS & TRAINING

- Software Developer Internship — Upcode Software Labs
